SUPER CHARGE®

Wynn's Super Charge® is an oil additive designed to improve the high temperature viscosity characteristics of engine oils.

Properties

- ✓ Improves the viscosity index of lubricating oils.
- ✓ Strengthens the oil film under high temperatures, high shear conditions.
- ✓ Restores compression and oil pressure.
- ✓ Reduces excessive oil consumption and exhaust smoke due to this oil consumption.
- ✓ Prevents metal-to-metal contact under high load. Reduces motor noises.
- ✓ Protects against corrosion, oxidation, rust and wear.
- ✓ Is compatible with all mineral and synthetic, single- and multigrade oils.
- ✓ Does not harm catalytic converters.

Applications

- ✓ Especially effective in case of heavy load, high temperature, excessive engine noise, long-distance driving, mountain driving and towing a caravan.
- ✓ Recommended for all petrol and diesel engines of vehicles and stationary equipment with high oil consumption, low oil pressure and low compression.
- ✓ Especially effective in older engines.

Directions

Bring engine to operating temperature and switch off. Add to engine oil. Let the engine run at idle for 10 minutes or drive a few kilometres at moderate speed.

- ✓ One can of 400 ml (W51351) treats up to 6 litres of engine oil.

Packaging

PN 51351 – 24x400 ml – EN/FR/DE/NL/IT
